Blinkit Sales & Operations Analysis – Power BI Mini Project

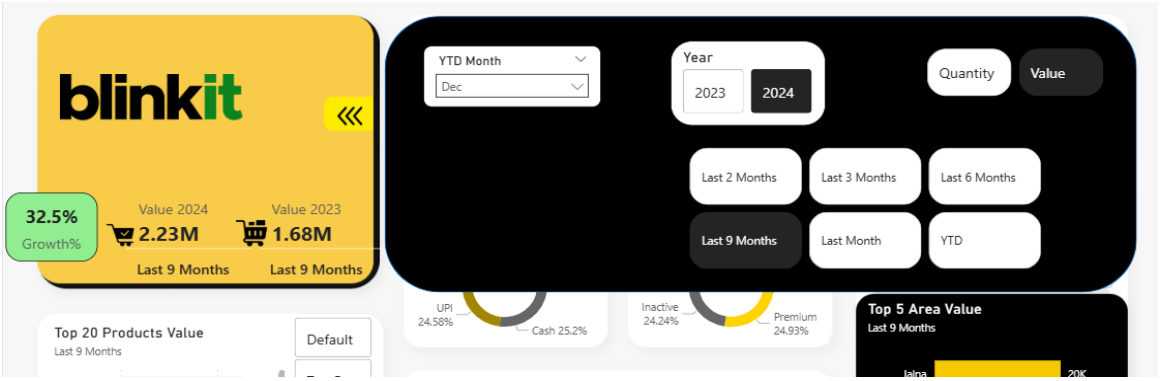

This project focuses on analyzing **Blinkit's sales and operational performance** using Power BI. The dataset was cleaned and transformed using **Power Query**, followed by building data models and writing **DAX measures** to derive meaningful insights.

Page 1: Sales Overview

This page gives a **business-level summary of sales performance** for Blinkit, comparing **2023 and 2024** over the **last 9 months 6 months, 3 months based on the filter**

What this page shows

- **Overall Growth**:
  The growth card shows **32.5% growth** in the first 9 months, indicating a strong increase in sales value from 2023 to 2024.
- **Sales Value Comparison**:
  - 2024 Value: **2.23M**
  - 2023 Value: **1.68M**
    This clearly highlights year-over-year improvement.

The **Value vs Quantity slicer** allows users to switch between:

- **Value-wise analysis** (revenue contribution)
- **Quantity-wise analysis** (volume contribution)

The **YTD comparison slicer** enables users to compare **Year-to-Date performance** across both years, helping identify growth patterns and performance consistency.

Additionally, **Month and Year slicers** allow time-based filtering, making it easy to analyze performance for specific periods.

Key Visuals & Insights

- **Payment Method Distribution**
  Displays how customers paid (Wallet, UPI, Card, Cash).
  This helps understand customer payment preferences and digital adoption.
- **Customer Segment Split**
  Breaks customers into **New, Regular, Premium, and Inactive**, showing which segment contributes most in the last 9 months.
- **Top Products by Value**
  A ranked bar chart showing **Top 20 products**, with buttons to dynamically switch between **Top 5, 10, 20, 50, and 100**.
- **Monthly Trend (Previous vs Current Year)**
  A line/area chart comparing **monthly sales value for 2023 and 2024**, along with **growth %**, helping identify seasonal patterns.
- **Top 5 Areas by Value**
  Highlights locations like **Jalna, Orai, Nizamabad**, etc., showing which regions generate the highest sales.

Page 2: Customers Overview

This page focuses on **customer behavior and customer-driven performance**, using **YTD (Year-To-Date)** metrics.

What this page shows

- **Customer Growth**:
  A **55% growth** indicates a significant rise in customer value from 2023 to 2024 in the month of June.
- **Customer Value Comparison (YTD June)**:
  - 2024: **1.49M**
  - 2023: **863.49K**

Key Visuals & Insights

- **Customer Count Comparison**
  Shows the proportion of customers in **2024 vs 2023**, clearly indicating higher engagement in 2024.
- **New vs Lost Customers**
  Compares newly acquired customers against lost customers, both in **count and sales value**.

- **Repeat Customers Analysis**
  Highlights how repeat customers contribute more consistently to sales, reinforcing customer retention importance.
- **Top Customers by Value**
  Displays **Top 10 customers**, with dynamic ranking buttons (Top 5, 10, 20, etc.).
- **Monthly Customer Trend**
  A line chart showing **current year vs previous year customers**, along with **customer growth % by YTD metrics.**.
- **Top Categories by Customer Count**
  Shows which categories attract the most customers (e.g., Dairy & Breakfast, Household, Fruits & Vegetables).

Page 3: Feedback Overview

This page analyzes **customer feedback, sentiment, and ratings**, linking customer experience with business performance.

What this page shows

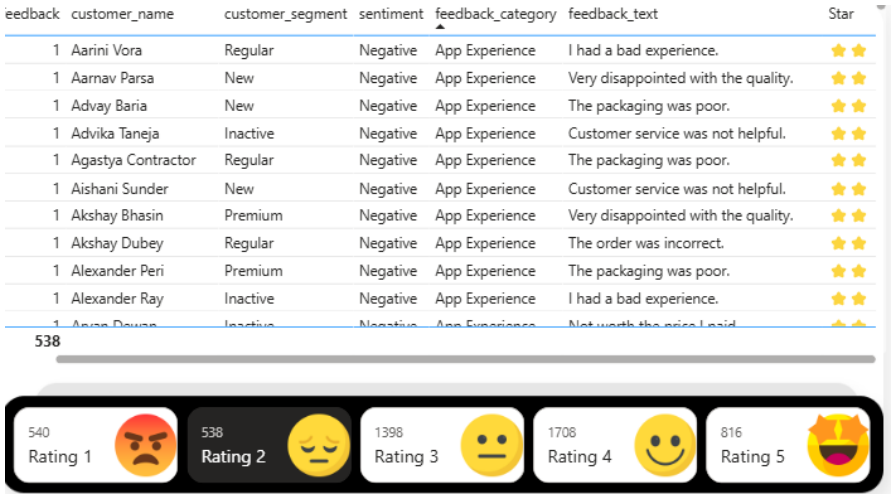

- **Total Feedback Volume (YTD)**
  - 2024: **2556**
  - 2023: **2444**
    This shows feedback volume is stable with slight growth.
- **Feedback Category Distribution**
  Breaks feedback into:
  - Delivery
  - Customer Service
  - Product Quality
  - App Experience
- **Sentiment Analysis**
  Feedback is classified into **Positive, Neutral, and Negative**, helping gauge overall customer satisfaction.

Key Visuals & Insights

- **Detailed Feedback Table**
  Displays customer-level feedback including:
  - Customer name
  - Segment

- Sentiment
- Feedback category
- Actual feedback text
  This allows deep, qualitative analysis.

- **Ratings Filter (1 to 5)**
  Interactive rating buttons allow filtering the entire page by:
  - Rating 1 (very dissatisfied)
  - Rating 5 (very satisfied)

eedback	customer_name	customer_segment	sentiment	feedback_category	feedback_text	Star
1	Aarini Vora	Regular	Negative	App Experience	I had a bad experience.	
1	Aarnav Parsa	New	Negative	App Experience	Very disappointed with the quality.	
1	Advay Baria	New	Negative	App Experience	The packaging was poor.	
1	Advika Taneja	Inactive	Negative	App Experience	Customer service was not helpful.	
1	Agastya Contractor	Regular	Negative	App Experience	The packaging was poor.	
1	Aishani Sunder	New	Negative	App Experience	Customer service was not helpful.	
1	Akshay Bhasin	Premium	Negative	App Experience	Very disappointed with the quality.	
1	Akshay Dubey	Regular	Negative	App Experience	The order was incorrect.	
1	Alexander Peri	Premium	Negative	App Experience	The packaging was poor.	
1	Alexander Ray	Inactive	Negative	App Experience	I had a bad experience.
